Attention: Mr. Burak Dincel

Re: Compatibility of Novatex Adhesive and waterproofing systems  
over Dincel Construction System.

Novatex Products prides itself in using the latest technology to produce environmentally friendly systems that are both cost effective and easy to use. As a leading adhesives manufacturer, Novatex Products has developed a complete waterproofing and adhesive system specifically designed for tiling over the Dincel Construction System which combines the use of our range of Low VOC adhesives and membranes together with our new non-porous water based acrylic primer designed especially to bond direct to the Dincel Wall without the need to abrade the surface or use any solvent based primers.

Novatex Products provides some of the most advanced polymer modified adhesive systems and with its unique PFR technology (fibre reinforcement) offering the market, adhesives with superior flexular strength. These advanced systems can now be applied onto the Dincel Construction System, our adhesives and waterproofing membranes are able to be used for both internal and external applications. Novatex Products have also designed a full tiling system for Dincel swimming pools as well (refer to Novatex products Specifications for correct applications).

Together with our large range of Texture coatings Novatex Products can also provide full coating systems over the Dincel Construction System for both the external or internal application.

Novatex Products offers a **15 year warranty to support our systems against delamination** from the Dincel Construction System providing that both are applied and installed by licensed trades and as per our specification. Novatex Products supply full detailed specifications. Novatex Products Adhesives and waterproofing membranes conform to the requirements of As-4992-2007 and in accordance relevant Australian Standards for ceramic tiling.

Please feel free to contact me if you have any further queries regarding our systems.

Yours faithfully,

Attention:- Mr Burak Dinzel

Re:- Compatibility of Mapei's Keralastic T two part polyurethane adhesive or Mapei's Kerapoxy two part epoxy system to Dinzel Construction System.

We confirm that the above mentioned adhesive system has passed C1 & C2 wet & dry requirements of AS-4992-2007 when used in compliance with respective manufactures data sheets and in accordance to relevant Australian Standards for ceramic tiling.

All Mapei products come with a 10 year manufactures product warranty when used in compliance with respective Mapei TDS and in accordance to relevant Australia Standards for tiling.

Should you be requiring any further assistance to this matter please do not hesitate to contact our Mr Joe Ceravolo on mobile 0418-159983 or this office.
