As a builder how can I ensure a wall installer or formworker is installing Dincel correctly if I don't know how to install it or what to look out for? After attending **The Dincel Academy** with my team we gained that knowledge and are now confident enough with this simple, fast and easy to use product to do all of the installation ourselves. If we need that extra little bit of help between our Account Manager and **Dincel's Quality Assurance team**, we're covered.
