

BCA 2019 CodeMark Certified & BRAC Accredited

Dinzel sets the benchmark for fire compliance and can assist with P.I. insurance concerns.

After a series of new large-scale tests in 2019, Dincel has been issued a CodeMark Certificate of Conformity to the 2019 BCA by certification body SAI Global and a product accreditation by the Building Regulations Advisory Committee (BRAC).

CODEMARK CERTIFICATE OF CONFORMITY

The CodeMark Certificate of Conformity verifies that Dincel is compliant with the 2019 BCA for the following:

- External and internal loadbearing wall applications.
- Walls with joints or penetrations.
- Bush fire prone areas (up to and including BAL-FZ).

The CodeMark scheme was developed by the Australian Building Codes Board (ABCB), and as such CodeMark certificates receive mandatory acceptance under State and Territory building control legislation.

BRAC BRAC ACCREDITATION

Accredited The BRAC Certificate of Accreditation verifies that Dincel is compliant with the performance requirement CP2 – Spread of fire, and subsequently confirms that Dincel can be used where a **non-combustible external wall** is required.

A BRAC Certificate of Accreditation is proof by the Building Regulations Advisory Committee that a product meets performance requirements of the BCA.

The BRAC is an independent statutory body appointed under Division 4 of Part 12 of the Building Act 1993 - Victoria.
